## Introduction

Unlike most crochet patterns, those in this book specify no gauge—and no suggested hook size and no yarn amounts!

That's because each square can be worked with your choice of yarn—from bulky to crochet cotton—to achieve just the look you want. Refer to the color photographs of all 101 squares to inspire you.

## Size

In this book, the squares shown were all worked with worsted weight yarn to a gauge of 4 dc and 2 dc rows = 1".

You may wish to experiment with a variety of yarns and hook sizes until you achieve the look that pleases you.

## How much yarn will you need?

To determine how much yarn you will need for a project, whether it is an afghan, a sweater, a hat or a baby jacket, first make up three squares, using the actual yarn and hook size you will use for the project, being sure to leave at least 3" of yarn to weave in later with every color change. Carefully rip out the three squares, and measure the yardage of yarn used for each color. Take the average yardage, and multiply it by the number of squares to be made. To this, add sufficient yardage for assembling, any edgings and fringe that you might want to make.

## About color...

Many of the squares use more than one color. We have specified what colors we used to make the samples, but you are free to change the colors as you wish.

Many of the one-color squares could be worked in two or more colors; many of the multicolored squares would be equally pretty in one color. ●
